The President,

University of Toronto.

Dear Sir:-

Victor Colmar, Laboratory attendant in Electrical Engineering having left us at the end of September, I beg to recommend for the vacant position Earnest Challacombe, 126 Willow Ave., Balmy Beach, Toronto. He is about the same age as Colmar and has had considerable previous experience in wiring besides having a fair general education. I consider that he is worth the same salary - \$400. as Colmar was receiving.

Yours very truly,

G. R. Rosebrugh
